This exceptional property is one of a kind! Built in 2010 to exacting standards in the style of a Quercy manor house, no expense was spared in the use of top-quality materials for the construction and finishing details. It also has an excellent energy rating due to its geothermal heating system! The house itself boasts a magnificent

DESCRIPTIF

Access to the property is via electric security gates with CCTV in place. A sweeping stone drive leads to the parking areas and garage. One can enter the house through the elegant front door or by the back door to the kitchen and utility room, which is located in the covered walkway between the house and the garage.

Ground floor:

The front door opens into a central hallway, from which you can access all the ground floor rooms and the first floor. There are numerous doors opening onto the terrace and the gardens at this level.

A massive living and dining room (51m²) is dominated by the classic stone fireplace. There are double glazed sliding doors all around, letting the sunlight stream in. The living area leads to the kitchen (22m²) through a beautiful stone archway.

The whole of the ground floor is paved with limestone tiles and offers reversible underfloor heating and/or cooling throughout. All the windows and doors are double glazed and were custom-made. Those leading onto the terraces or gardens also have electric blinds to give shelter from the sun.

The units in the fitted kitchen are made of beech with black granite worktops. The kitchen is equipped with all necessary appliances including a cast iron Godin cooking range with double ovens. The stove works on either gas or electricity. A door from the kitchen leads to a fully equipped utility room, which in turn opens into the covered walkway between the house and the garage.

To the left of the entrance hall,
